The Trello board displays the following tasks:

- Backlog:**
 - Project 1: Create python program for NL Chocolate company as user menu with 5 options as follows (enter 1 to 5 to pick option) :(1. Enter a employee travel claim 2. fun interview questions 3. cool stuff with strings and dates 4. graph monthly claim totals)
 - Project 2 : GitHub Repository This part only is to be completed individually. Each student must create a Repository in GitHub and place the program file from Project 1 in the repository. Make sure you each get a copy of the program once it is completed so that you can add it to your repository. Each student is also required to take at least 2 pictures of their Trello board throughout the week – the pictures can be placed and saved in a Word file. This document is also to be added to the GitHub repository. Once all files are in the repository, send me the URL to your repository
- Sprint Backlog:**
 - Project 1,Option 1: Enter a employee travel claim
 - Project 1,Option 2: Fun Interview question
 - Project 1,Option 3: Cool Stuff with strings and dates
 - Project 1,Option 4: Monthly Revenue
- In Progress:**
 - Project 4: Bash command document
 - Project 3 : Technical writing , prepare a user manual based on python project 1,
 - Project 5: Power point presentation (Due Jun 24)
 - Fine Tuning Python program for NL Chocolate company having issues with option 3
- Sprint - Complete (Devin):**
 - Decide who does what exactly on each project, do we split up programs per section or take a program each and refine and complete on our own?
 - Option 2: Fun Interview question
 - Option 3: Cool Stuff with strings and dates
- Sprint - Complete(Jacob):**
 - Decide who does what exactly on each project, do we split up programs per section or take a program each and refine and complete on our own?
 - Option 1: Enter a employee travel claim
 - Option 4: Monthly Revenue
 - Project 5: Power point presentation (Due Jun 24)
